

## **Total Mixed Ration**

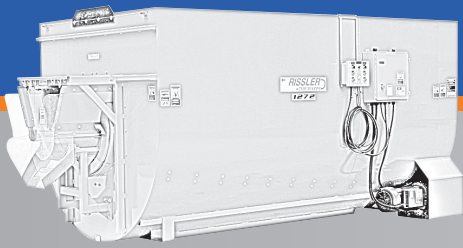

### **Standard Features**

- 1/4" steel drum with stainless liner
- Stainless steel auger trough
- Reversing reel and auger
- Variable speed auger
- Very low maintenance
- No shear pin
- Hay knives spaced 12" apart for effectively processing dry hay
- No ball bearings to fail on reel or auger (Uses UHMW high density poly bearings)
- Gentle tumble mixing action
- 8 models to choose from
- Dual mixing action reel takes feed toward discharge end, auger takes feed away from discharge end, effectively eliminating dead spots.

***Heavy duty mixer built for efficiency, safety and years of operation.***

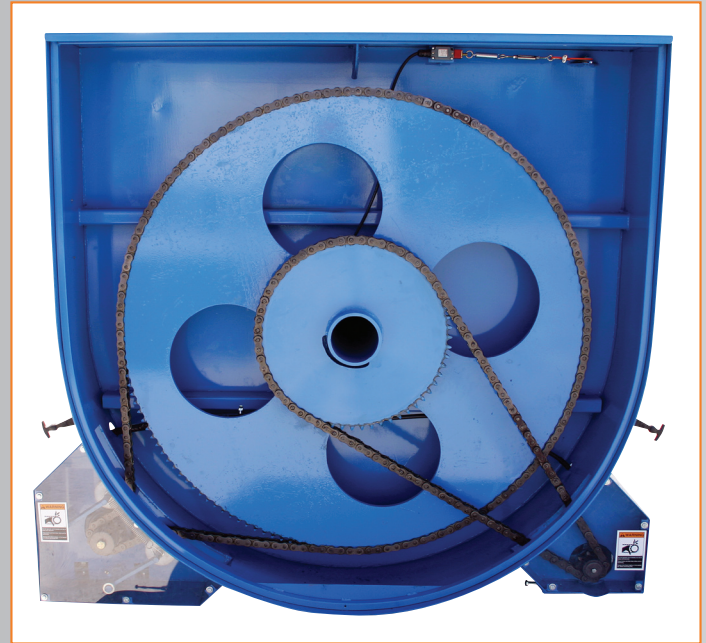

Shielded discharge with magnetic strips for cleaner, safer operation.

**Long lasting construction  
with efficiency in design.**

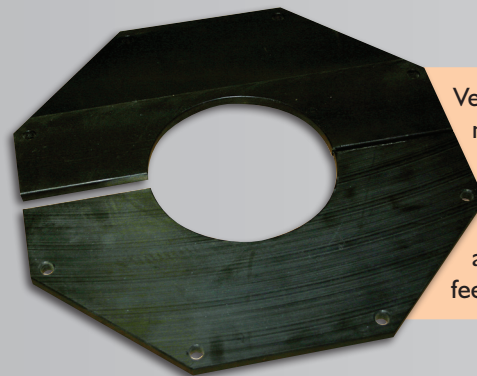

Available in a variety of sizes to  
meet the needs of most farms.

Electric motors drive auger and mixing reel  
separately for greater handling options.  
Large drive gears move material smoothly  
and efficiently.

Heavy duty replaceable hay  
knives cut hay as mixing  
reel rotates feed in drum.

Very durable non-  
metallic wear  
surfaces eliminate  
emergency  
breakdowns. Slot  
allows clean-out of  
feed on thrust plates.

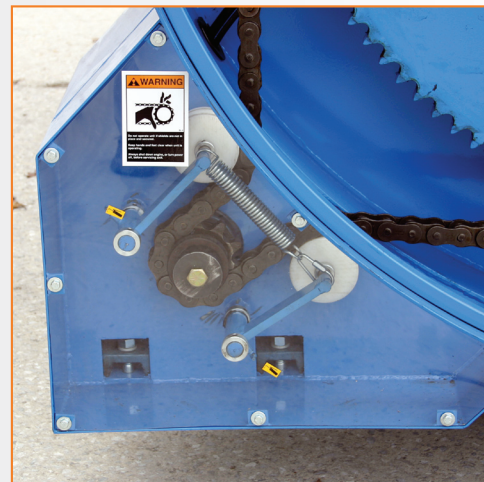

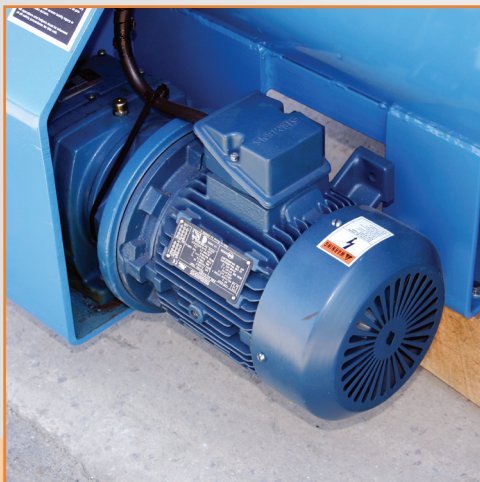

Large capacity, easy to fill hoppers cut  
and mix feed smoothly and efficiently.

# Electra-Mix™ features & options

Efficient heavy duty electrical motors provide reliable performance.

Roller chains with spring-loaded tighteners provide smooth, efficient handling of your ration.

Sealed controls are conveniently placed for safe access. Independent reel/auger switches with variable speed control on auger drive allow you to customize your mix.

An emergency stop is easily accessed from three sides. Equipment stops immediately when cord is pulled. It will only restart by pressing the start button on the control panel.

## Optional

Optional Digi Star™ Electronic Scales will give you desired results in your total mixed ration.

Easily installed with convenient digital read-out mounted at desired height.

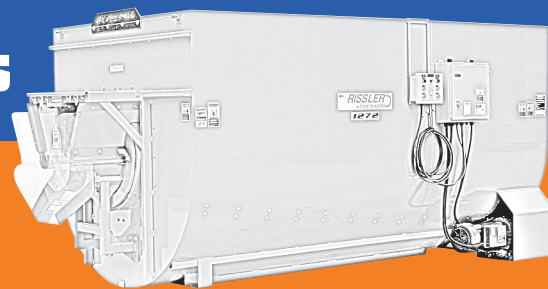

Digi Star™ weigh bar

Digi Star™ readout
